

# Business communications that's more than just talk.

**My Biz Consulting**  
— Digital Marketing Solutions —

## Voice. Text. Video. Collaboration.

Phone.com is the modern, work-from-anywhere solution for today's agile, mobile, and always-on entrepreneurs and growing businesses.

Looking for a business communications service to keep you connected from anywhere on any device? Phone.com offers all of the modern features of a big-enterprise phone system but is affordable and easy to use for entrepreneurs and growing businesses. In just minutes, you can take your business to the next level.

The Phone.com solution includes advanced business phone features your growing business needs to serve your customers effectively and professionally. Big business features keep even the smallest business sounding large to potential customers. Advanced call handling options enhance your company image, and mobility features keep you connected anytime, anywhere with colleagues, customers, and partners whether you're in the office or on the go.

### With Phone.com you get:

- ✔ Communications that just works on any device. Phone.com can support physical phones as well as mobile devices and softphones.
- ✔ A modern feature set that includes conferencing, texting, sophisticated call management, and more.
- ✔ A web-based administration panel. Add users or make system changes on the fly from anywhere. There's no need to be a telecom expert.
- ✔ A frictionless future. You get free software upgrades and new features so that your unified communications solution is always state-of-the-art. As your business grows, Phone.com grows with you.
- ✔ Unparalleled support. The US-based bilingual support team is standing by 24/7 to help you succeed.

# The Phone.com Experience

## No more using a personal number for business.

Business phone numbers create a more professional impression and give you more control over customer relationships.

## Enterprise features at a fraction of the cost.

Greetings, Automated Attendants, and Hold Music provides callers with a first-class experience, even if you are a one-person show.

## No implementation headaches.

Start communicating immediately after choosing our inventory of over 20 million phone numbers. Use your mobile device, PC, or IP desk phone.
